

# Innovation Vouchers

Innovation vouchers have been available for some time now and as C2M is approved to support these in the region, we want to know of any issues you are having accessing them. The regulations around the use are there for good reason to stop the miss use of them but we are hearing other issues as well. Has the advisor told you that your idea is not innovative ? how do they know, have they done a patent search? Has the advisor decided that you are a pre start when you have been trading for a while? It is issues like this that we would like to hear about. We have had several clients jump through manu hoops only to be then told that they were not going to be supported, we want to know why.

If you have an issue with Business Link and your not getting anywhere, let us know and we can bring it to their attention as part of the focus group.
